Overview

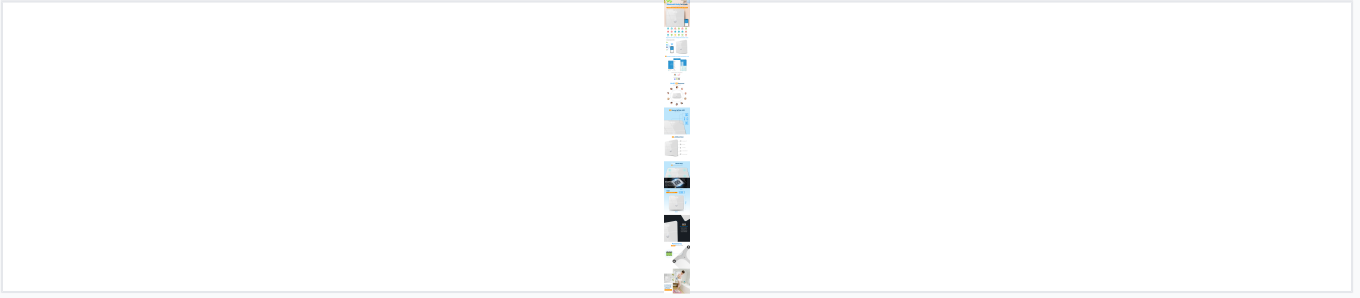

Advanced Body Composition Analysis

This high-precision body composition analyzer utilizes advanced ITO glass technology to provide accurate measurements of over 18 different body metrics. Designed for seamless integration into health routines, it features Bluetooth 4.0 connectivity, allowing users to sync data directly to a dedicated mobile app. With its sleek tempered glass platform and high-visibility LED display, this scale combines professional-grade health tracking with user-friendly operation.

Technical Specifications

Maximum Capacity	180 kg
Measurement Division	100 g
Platform Material	6mm ITO tempered glass
Scale Dimensions	319 x 319 x 24 mm
Power Source	4 x AAA batteries (included)

Connectivity & App

Comprehensive health monitoring with app integration and BIA biometric technology.

App Features

- Auto connection
- Multiple user & guest mode
- Graphic and data table visualization
- Social media sharing
- Data sync with Google Fit and Health Kit

Connectivity

Bluetooth 4.0

Measurement Capabilities

Metrics Tracked

Weight, BMI, Body Fat %, Water Content %, Muscle Mass, KCAL, Bone Mass, Visceral Fat, Protein Rate

Features

Smart Features

Auto-on • Auto-off • Overload Indication • Low Battery Indication
