Product Overview

High-accuracy BIA biometric technology integrated with the Tuya Smart Life App.

Smart Body Composition Scale

This high-precision Bluetooth smart scale leverages advanced BIA biometric technology to provide comprehensive health monitoring through the Tuya Smart Life App. Featuring a compact and durable 280x280mm tempered glass platform, it is designed for both safety and portability. The device tracks over 13 body metrics, including muscle mass, BMI, and visceral fat, making it an ideal professional tool for health and fitness tracking.

Technical Specifications

Weight Capacity

180 kg

Maximum Capacity

Dimensions	280 x 280 x 22 mm
Graduation	100g (0.2lb)
Power Supply	3 x AAA Batteries (included)

Features

Measured Metrics

- Weight
- BMI
- Body Fat %
- Water Content %
- Muscle Mass
- Bone Mass
- Visceral Fat Grade
- Protein
- Physical Age
- Defatted Body Weight
- KCAL

Smart Features

Bluetooth, Tuya App Compatible, Auto On/Off, Multiple User Support

Display

LED display with 28mm segment height

Safety and Build

Alerts

Overload Indication • Low Battery Indication

Construction

5mm tempered glass platform with 4 precision strain gauge sensors
