

BNC Video and DC Power Cable

This communication cable is designed for reliable signal transmission. It features BNC connectors for video signals and a DC power connector for power supply.

Product Overview

Professional Connectivity Solution

This BNC Video and DC Power Cable is engineered for reliable signal transmission in security and surveillance environments. Combining video signal transmission and power supply into a single, convenient cable, it simplifies installation for CCTV systems and other compatible applications. The durable design ensures consistent performance, making it an ideal choice for professional deployment.

Technical Specifications

Connector Configuration

- BNC Connector (Video)
- DC Power Connector (Power)

Cable Type	BNC Video and DC Power
Primary Application	CCTV, Video Surveillance, Power Supply

Physical Characteristics

Cable Color

White

Packaging	Coiled
