

# Bolt-On Corner Adapter 3G4258 for J250 Series

This bolt-on corner adapter is a replacement part for J250 series equipment. The 3G4258 adapter is made from alloy steel.

## Product Overview

Precision-cast alloy steel corner adapter designed for high-impact durability.

## Heavy-Duty Corner Adapter

This high-performance bolt-on corner adapter is engineered for demanding applications in loaders and excavators. Manufactured using precision casting methods with high-grade alloy steel, it provides exceptional durability and structural integrity. Designed for the J250 series, this component ensures reliable operation and is built to withstand rigorous working conditions.

## Technical Specifications

|                   |             |
|-------------------|-------------|
| Part Number       | 3G4258      |
| Production Method | Casting     |
| Material          | Alloy steel |

## Performance Metrics

### Mechanical Properties

|                               |  |  |                                  |
|-------------------------------|--|--|----------------------------------|
| <b>520 HB</b><br>Max Hardness | <b>1450 N/mm<sup>2</sup></b><br>Min Tensile Strength | <b>1100 N/mm<sup>2</sup></b><br>Min Yield Strength | <b>15 J</b><br>Min Impact Energy |
|-------------------------------|--|--|----------------------------------|

## Compatibility

### Compatible Machine Types

Loader • Excavator

### Required Installation Hardware

| Component    | Part Number |
|--------------|-------------|
| Matched Bolt | 4J9058      |
| Matched Nut  | 8J2933      |
