

Bottleless Water Dispenser with Hidden Bottle Design

This bottleless water dispenser features a hidden bottle design for a clean and modern aesthetic. It offers multiple temperature options, including hot, cold, and room temperature water.

Overview

Modern Bottle Hidden Design

The HD-1363 water dispenser features a sleek, modern aesthetic that conceals the water bottle, providing a clean and professional appearance for any environment. Designed for both homes and offices, this unit offers versatile hot, cold, and room temperature water options. It prioritizes user safety and hygiene with a child safety lock and a durable stainless steel reservoir.
