

Bottom Freezer Refrigerator (280L-282L)

This refrigerator series features a bottom freezer compartment. Models range from 280 to 282 liters in total capacity, with varying freezer and fridge department volumes.

Overview

Bottom Freezer Refrigeration Series

This series of bottom freezer refrigerators offers versatile storage solutions with total capacities ranging from 280 to 282 liters. Designed for efficiency, these units feature a balanced distribution between fridge and freezer compartments, making them ideal for standard household or professional kitchen needs. With a consistent cooling capacity of 5.5 Kg/24h and eco-friendly R600a refrigerant, these appliances provide reliable performance and energy-conscious operation.
