

Bow Saw with Tubular Steel Frame

This bow saw is designed for cutting branches and logs. It features a red tubular steel frame that provides tension to the toothed blade.

Product Overview

Professional Bow Saw

This bow saw is engineered with a durable tubular steel frame, designed to provide the necessary tension for efficient wood cutting. It features a sharp, toothed blade secured by robust metal brackets, allowing for easy adjustment of blade tension. Ideal for landscaping and forestry tasks, it is built to handle branches and logs with precision.
