

Bow Saw with Tubular Steel Frame

This bow saw features a green tubular steel frame with a curved design. The blade is securely mounted and tensioned for efficient cutting of wood and other materials.

Overview

Professional Bow Saw

This high-performance bow saw is engineered with a robust tubular steel frame, designed to provide exceptional durability and rigidity during heavy-duty cutting tasks. The ergonomic handle features a comfortable grip, ensuring user control and reduced fatigue during extended operation. With its secure blade tensioning system, this tool is optimized for efficient cutting of wood and various other materials in professional environments.

Design & Construction

Frame Material	Tubular Steel
Frame Color	Green
Frame Shape	Curved

Ergonomics

Handle Features	Ergonomic Design, Comfort Grip, Black and Orange Accents
-----------------	--

Performance

Suitable Materials

- Wood
- General Purpose Cutting

Blade System

Securely Mounted • Tensioned Blade
