

Brake Cleaner for Automotive Brake Systems

This high-performance brake cleaner quickly removes brake dust, grease, oil, and other contaminants from brake parts. It is suitable for use on disc and drum brakes, ensuring optimal braking performance and reduced brake squeal.

Product Overview

High-Performance Brake Cleaner

This high-performance brake cleaner is expertly formulated for the rapid and effective removal of brake dust, grease, oil, and various contaminants from automotive brake components. Designed for versatility, it is suitable for both disc and drum brake systems, helping to ensure optimal braking performance and reduce brake squeal. The fast-drying, residue-free formula promotes safer and more efficient brake operation for professional automotive maintenance.

Technical Specifications

Net Weight	567 g
Container Size	20 OZ

Features & Benefits

Safety Compliance

No-CFCs • Non-Chlorinated

Key Features

Fast-Drying, No Residue, Power Degreaser, Instant Clean

Application

Compatible Brake Systems

- Disc Brakes
- Drum Brakes
