

Brass Angle Valve for Plumbing

This angle valve is constructed from durable brass. It is suitable for controlling water flow in plumbing and industrial systems.

Product Overview

Professional Grade Angle Valve

This brass angle valve is engineered for reliable water flow control in residential, commercial, and industrial plumbing systems. Constructed from high-quality brass with a polished chrome finish, it offers excellent corrosion resistance and durability. The design features a robust brass core and a zinc-brass handle, ensuring smooth operation and long-lasting performance under pressure.

Technical Specifications

Available Sizes	1/2" x 3/8", 1/2" x 1/2"
Maximum Pressure	10 bar
Minimum Temperature	-10 °C
Thread Standard	ISO-228-1:2000
Suitable Medium	Water

Materials & Construction

Body Material	Brass with chrome plate and polish
Handle Material	Zinc (Brass)
Core Material	Brass
