

Brass Angle Valve for Plumbing Systems

This angle valve is constructed from durable brass. It is suitable for use in plumbing systems requiring a 90-degree change in direction.

Product Overview

Professional Brass Angle Valve

This durable brass angle valve is engineered for reliable flow control in residential and commercial plumbing systems. Featuring a polished chrome-plated finish and a robust brass core, it offers excellent corrosion resistance and longevity. Designed for standard water applications, this valve ensures secure installation and smooth quarter-turn operation for fixtures like sinks and toilets.

Technical Specifications

Available Sizes

- 1/2" x 3/8"
- 1/2" x 1/2"

Materials
