

Brass Angle Valve for Plumbing Systems

This is an angle valve designed for controlling the flow of water or other fluids. The valve features durable brass construction for corrosion resistance and long-lasting performance.

Product Overview

Professional Brass Angle Valve

This high-quality brass angle valve is engineered for reliable fluid control in plumbing and industrial applications. Constructed with a durable brass body featuring a polished chrome finish, it offers superior corrosion resistance and long-lasting performance. Designed for easy installation, this valve ensures a secure, leak-free seal suitable for various water system environments.

Technical Specifications

Max Pressure

10 bar

Max Pressure

Available Sizes

- 1/2" * 3/8"
- 1/2" * 1/2"

Minimum Operating Temperature

-10 °C

Thread Standard

ISO-228-1:2000

Material & Construction

Body Material

Brass • Chrome Plated • Polished

Handle Material

Zinc (Brass finish)

Internal Core

Brass

Usage

Suitable Medium

Water
