

Brass Angle Valve with Butterfly Handle

This angle valve is constructed from brass and features a full bore PN40. It includes an aluminum butterfly handle for manual operation.

Product Overview

High-Performance Brass Angle Valve

This durable brass ball angle valve is engineered for reliable flow control in professional plumbing and fluid systems. Featuring a full-bore design for optimal throughput, it comes equipped with an ergonomic aluminium butterfly handle for easy operation. Rated at PN40, this compact valve is built to handle demanding pressure requirements while maintaining a sleek, space-saving profile.
