

Brass Ball Bibcock with Barbed Outlet

This brass ball bibcock features a red lever handle, threaded inlet, and barbed outlet. The valve is constructed from durable brass, providing corrosion resistance for plumbing applications.

Product Overview

Professional Grade Brass Ball Bibcock

This brass ball bibcock is engineered for reliable water flow control in diverse plumbing environments. Featuring a durable brass body, it offers excellent corrosion resistance and longevity for industrial and residential applications. The design incorporates a secure threaded inlet and a convenient barbed outlet, making it an ideal solution for hose connection requirements.
