

Brass Drain Valve with Hose Barb

This brass drain valve is equipped with a barbed hose connection on one end and a threaded connection on the other. It includes a tethered cap to keep out debris when not in use.

Product Overview

Professional Grade Brass Drain Valve

This brass drain valve is designed for reliable fluid management in HVAC&R systems, specifically for draining condensate and other liquids. It features a durable brass construction with a red handle for easy operation and a barbed hose connection for secure attachment. The integrated tethered cap provides essential protection against debris, ensuring the valve remains clean and functional when not in use.

Technical Specifications

Thread Size

0.5 inch

Thread Diameter

Primary Material

Brass

Design Features

Connection Interface

- Threaded Connection
- Barbed Hose Connection

Handle Color

Red

Protective Elements

Tethered Cap, Debris Protection

Applications

Common Applications

- HVAC Systems
- Refrigeration Units
- Condensate Draining
- Fluid Management
