

# Brass Garden Hose Coupling

This brass coupling provides a quick and secure connection for garden hoses. Its durable construction ensures a long-lasting, reliable seal in outdoor environments.

## ADDITIONAL IMAGES

## Product Overview

### Professional Brass Garden Hose Coupling

These durable brass garden hose couplings are engineered for reliable performance in outdoor environments. Constructed from high-quality CW617N brass, they offer excellent corrosion resistance and long-lasting durability for various watering applications. Featuring precision-machined surfaces and versatile connection mechanisms, these couplings ensure a secure, leak-proof seal for hoses, faucets, and garden equipment.

## Technical Specifications

### Available Sizes

- 1/2"

### Material Grade

CW617N Brass

### Surface Finish

Polished

## Features

### Key Benefits

Corrosion Resistant • Leak-Proof Seal • Durable Construction • Quick Connect/Disconnect

### Connection Types

Barbed Hose Shank, Cam-lock Mechanism, Male Threaded, Claw-lock Mechanism
