

Brass Quarter-Turn Garden Bibcock

This brass bibcock is designed for outdoor water access. It features a quarter-turn ball valve for convenient on/off control and a threaded inlet for secure connection to water pipes and a hose barb outlet for easy attachment of garden hoses or other watering devices.

Product Overview

Durable Brass Garden Bibcock

This high-quality brass bibcock is designed for reliable outdoor water access and HVAC&R system control. Featuring a quarter-turn ball valve with an ergonomic blue handle, it provides quick and convenient on/off flow management. Its robust brass construction ensures excellent corrosion resistance and long-lasting performance across various weather conditions and industrial applications.

Technical Specifications

Art No.	Size		
JL-7313	1/2	3/4	1
