

Brass Stop Valve for Plumbing and Industrial Applications

This stop valve is made of high-quality brass, ensuring reliable flow control in plumbing and industrial applications. It features a chrome-plated handle for easy operation and precise adjustment with a maximum working pressure of 200 PSI.

Overview

High-Performance Brass Stop Valve

This high-quality brass stop valve is engineered for reliable flow control in both plumbing and demanding industrial environments. Constructed with a durable brass body, it offers excellent corrosion resistance and long-lasting performance. The design includes a chrome-plated handle for smooth, precise operation, making it a versatile solution for water, oil, and gas applications.

Technical Specifications

Maximum Working Pressure

200 PSI

Max Pressure

Temperature Range	-20°F to 250°F
Connection Type	Compression fittings
Compatible Media	Water, Oil, Gas

Construction & Design

Key Features

Corrosion Resistant • Durable Construction • Easy Operation

Body Material	Brass
Handle Finish	Chrome-plated
