Product Overview

Professional Terminal Distribution Blocks

These terminal distribution blocks provide a secure and organized solution for electrical power transmission and distribution. Designed for efficiency, they allow for easy installation without the need to cut the main cable, saving valuable time and labor. The integrated transparent covers ensure safe operation while allowing for quick visual inspection of connections, making them an ideal choice for narrow spaces like bridge frames or electrical boxes.

Key Features

Key Advantages

Dust-Proof Design • Transparent Inspection Cover • DIN Rail Mountable • Flame Retardant • Easy Maintenance

Technical Specifications

Voltage Rating

690 V

IEC Rated Voltage

250 V

Standard Rated Voltage

Operating Temperature Range

- PA66 Material: -30°C to 110°C
- PC Material: -60°C to 135°C

Series GKUKK Data

GKUKK Series Specifications

Model	Current	Dimensions (mm)
GKUKK80	80A	30x69x49
GKUKK125	125A	29x77x46
GKUKK160	160A	29x77x46
GKUKK250	250A	47x96x50
GKUKK400	400A	47x96x50
GKUKK500	500A	49x96x50

Series GK112 Data

GK112 Series Specifications

Model	Configuration	Dimensions (mm)
GK112-01	2P-7	65x45x51
GK112-02	2P-15	132x45x51
GK112-03	4P-7	65x88x51
GK112-04	4P-11	100x88x51
GK112-05	4P-15	132x88x51
GK112-06	2P-11	100x45x51
