

# Brazed Diamond Cutting Blade

This brazed diamond cutting blade is engineered for exceptional cutting performance and durability. The blade is designed for use on a variety of materials including stone, tile, concrete, and masonry.

## Product Overview

### Engineered for Professional Cutting

This brazed diamond cutting blade is engineered for exceptional cutting performance and durability. Featuring a robust steel core with diamond particles brazed directly onto the cutting edge, it provides aggressive cutting action and an extended lifespan. The segmented rim design facilitates efficient debris removal and cooling, making it a reliable tool for demanding tasks.

## Technical Specifications

### Application Types

Wet Cutting • Dry Cutting

### Key Features

- Brazed diamond particles for strong bond
- Robust steel core construction
- Segmented rim for debris removal
- Optimized for heat reduction

### Compatible Materials

Stone, Tile, Concrete, Masonry
