

Brazed Diamond Saw Blade

This brazed diamond saw blade is designed for efficiently cutting hard materials. It features a durable steel core with a brazed diamond edge and a scalloped edge design for cooling and debris removal.

Product Overview

High-Performance Brazed Diamond Blade

This brazed diamond cutting blade is engineered for the efficient and precise cutting of hard materials, including stone, tile, and concrete. Featuring a durable steel core with a specialized brazed diamond edge, it delivers exceptional cutting performance and extended service life. The design includes features that enhance cooling and debris removal, ensuring smooth, clean cuts with minimal chipping during operation.

Technical Specifications

Available Diameters & Arbors

Diameter (mm)	Arbor Size (mm)
105	22.23
115	22.23
125	22.23
180	22.23
230	22.23
305	25.4
350	25.4

Blade Width	4 mm
Grit Size	#30/40

Performance Features

Key Benefits

Efficient Cutting • Minimal Chipping • Enhanced Cooling • Durable Core
