Brewery Expansion Project

This project focused on expanding a brewery's capacity to 100,000 tons per year. It received national recognition for its design and technological advancements.

Project Overview

Industrial Brewery Expansion

This large-scale industrial project focuses on significant brewery capacity expansion to meet high market demand. With a specialized focus on saccharification and efficient workshop design, the facility integrates modern engineering with functional industrial aesthetics. The project is recognized for its high standards in design excellence and technological progress within the food and beverage engineering sector.

Annual Production Capacity

100000 tons/year
Annual Capacity

Credentials and Recognition

Industry Awards

- Saccharification Workshop - National Excellent Design Exposition
- National Science and Technology Progress Prize
- Overall Project - National Excellent Design Gold Medal

Project Execution

Engineering Division	Fourth Design Engineering Department

Rooms 05–15, 13A/F South Tower, World Finance Centre, Harbour City, 17 Canton Rd, Tsim Sha Tsui, Kowloon, Hong Kong
