

British Standard Power Cord

This power cord is suitable for various electric appliances compliant with BSI & ASTA standards. It features a BS plug for reliable power connection.

Product Overview

Reliable British Standard Power Solution

This BS1363 compliant power cord is designed for the UK market and regions following British standards, featuring a robust three-pin plug configuration. It offers versatile power delivery with adjustable fuse ratings and multiple cable type options to suit various household and electronic appliances. Built with impact-resistant materials and flexible insulated copper wiring, it ensures long-term durability and safe electrical transmission for professional applications.
