

Brush Cutter Shoulder Strap

This single shoulder strap is designed for use with brush cutters and other gardening tools. It features a padded shoulder pad for comfort and an adjustable strap for a secure fit.

Product Overview

Ergonomic Brush Cutter Support

This single shoulder strap is specifically engineered for brush cutters and various heavy-duty gardening tools. Designed to enhance operator comfort, it features a padded shoulder cushion and durable PP fabric webbing that effectively distributes tool weight. The adjustable design ensures a secure and personalized fit, while the quick-release clip facilitates rapid tool attachment and detachment for improved efficiency during extended landscaping tasks.
