Product Overview

High-Performance Brushless Reciprocating Saw

This 18V compact reciprocating saw is engineered for professionals requiring efficiency and maneuverability in tight spaces. Featuring an advanced brushless motor, it delivers consistent power and extended runtime for demanding demolition and remodeling tasks. The tool includes essential safety and convenience features like an electronic brake, soft-start, and a tool-less blade change system to maximize productivity on the job site.

Technical Specifications

No Load Speed

3000 rpm

No Load SPM

Compatible Battery Capacities

- 2.5Ah
- 5.0Ah

Voltage	18 V
Stroke Length	13 mm

Features & Safety

Usability Features

Variable Speed • LED Work Light • Tool-less Blade Change • Soft-Grip Handle

Safety & Control

E-Brake, Over-load Protection, Open Circuit Protection, Lock-Off Switch, Soft-Start
