

Brushless Cordless Chainsaw for Pruning and Limbing

This brushless cordless chainsaw is designed for efficient and powerful cutting. It features a robust motor, ergonomic design for comfortable handling, and a durable chain for long-lasting performance, making it ideal for pruning, limbing, and light cutting tasks around the garden.

Overview

High-Performance Cordless Pruning

This 40V brushless cordless chainsaw is engineered for efficient pruning and limbing tasks. Featuring a powerful 1000W brushless motor and a 14-inch bar, it delivers consistent cutting performance with a chain speed of 15m/s. Designed for convenience and durability, it includes tool-free chain adjustment and an automatic oiling system to ensure smooth operation in any garden environment.
