Overview

High-Performance Brushless Multi-Tool

This 18V cordless oscillating multi-tool is engineered for professional-grade cutting, sanding, and scraping tasks. Featuring a high-efficiency brushless motor, it provides extended runtime and tool life compared to conventional brushed models. The tool-less blade change system and variable speed control ensure maximum productivity and precision across a wide range of materials.

Performance

Performance Highlights

18 V DC

Voltage

20000 opm

Max OPM

3.2 °

Oscillating Angle

Technical Specifications

Technical Data Sheet

Feature	Specification
Motor Type	Brushless
Switch Type	On-Off Switch
Oscillating Angle	1.6° (3.2° Total)
Orbital Action	No
Hook	No
No Load Speed	6000 - 20000 OPM
Battery Options	2.5Ah, 5.0Ah, Li-Ion

Features & Safety

Safety and Protection

- E-Brake System
- Over-load Protection
- Open Circuit Protection
- Soft-Start Function
- Lock-Off Switch

Operational Features

Variable Speed • LED Work Light • Soft-Grip Handle • Tool-less Blade Change
