

Brushless Drilling and Milling Machine

This drilling and milling machine combines both functions in a single versatile machine tool. Its brushless motor ensures smooth, reliable performance and reduces the need for maintenance.

Overview

Versatile Precision Machining

This brushless drilling and milling machine is a robust tool designed for high-precision metalworking, combining drilling and milling capabilities into one efficient unit. Featuring a brushless motor, it delivers reliable, quiet performance with minimal maintenance requirements. Its heavy-duty construction and adjustable controls make it ideal for demanding tasks ranging from prototype development to small-batch production.

Performance

Key Performance Metrics

1.5 kW

Power Output

580 kg

Net Weight

120 mm

Spindle Stroke

Max Drilling Capacity	40 mm
Max End Milling Capacity	32 mm
Max Face Milling Capacity	80 mm
Spindle Speed Range	60-2500 rpm

Technical Specifications

Table Size	800x240 mm
Table Travel (X,Y)	560x230 mm
Spindle Incline Angle	±90°
Spindle Taper	MT3, MT4, R8, ISO30

Features

Included Accessories

- Drill Chuck 3-16/B16
- Drawbar
- Arbor MT2/B16-M10
- Digital Depth Ruler
- Spindle Cover with Micro Switch
- Toolbox & Tools

Compliance

CE • IP20
