Product Overview

Heavy-Duty Cutting Edge

This SBF bucket cutting edge is a vital component for construction machinery, designed to endure the rigorous demands of excavation and material handling. Compatible with motor graders, bulldozers, and excavators, it ensures enhanced digging efficiency and an extended service life for your equipment. Engineered for precision, this high-performance part is a reliable choice for maintaining operational productivity on demanding job sites.

Technical Specifications

Part Number	1187998
Compatible Machinery	Motorgrader, Bulldozer, Excavator

Dimensions

Available Dimensions (L*W*H)

- 1800 x 400 x 50 mm
- 1900 x 400 x 50 mm
