

Buffing Wheel for Polishing

This buffing wheel is designed for polishing and finishing various materials. It is constructed from high-quality abrasive materials to ensure efficient and consistent performance.

Product Overview

Professional Buffing Wheel

This high-quality buffing wheel is engineered for precision polishing and finishing across a variety of materials. Designed for consistent performance, it is an ideal solution for metalworking, woodworking, and other industrial applications requiring superior surface refinement. Its durable construction ensures long-lasting use and resistance to wear, delivering a smooth, polished finish with minimal material removal.

Certifications & Standards

Quality Certifications

ISO 9001, ISO 14001, OHSAS 18001, IAF, CNAS

Technical Specifications

Recommended Applications

- Metalworking
- Woodworking
- Surface Refinement
- Finishing

Model Identifier

BK60
