Overview

Advanced Four-Zone Induction Cooking

This built-in induction cooktop features advanced half-bridge heating technology, ensuring rapid power delivery and consistent, efficient performance. Designed for modern kitchens, it includes a durable micro-crystal glass panel and intuitive touch controls for precise temperature management. With built-in safety features like child locks, residual heat indicators, and automatic pan detection, this unit combines high-performance cooking with professional-grade safety standards.

Performance

Performance Metrics

100 W

Minimum Power Output

Heating Technology

Half-bridge induction, Magnet-electric heat exchange, Booster function

Cooking Zones

4 zones

Features

Safety Features

- Child protection lock
- No pan detection
- Residual temperature indication
- Current and voltage monitoring
- Timer delay off

Control Interface

Touch Sensor • LED Digital Display • Precise Timer

Installation

Installation Dimensions

Specification	Measurement
Overall Width	900 mm
Overall Depth	520 mm
Cutout Width	875-914 mm
Cutout Depth	492-526 mm
Minimum Clearance	35-50 mm

Design

Surface Material	Imported micro-crystal glass panel
