

Built-In Kitchen Refrigerator

This refrigerator is designed to be built into kitchen cabinetry for a seamless look. It features adjustable shelves, door compartments, and a crisper drawer.

Overview

Seamless Kitchen Integration

This 54cm built-in combination refrigerator is designed for a sleek, modern kitchen aesthetic. It offers a total net capacity of 275 liters, efficiently split between a 205-liter refrigerator compartment and a 70-liter four-star freezer. With features like electronic temperature control, reversible doors, and low-noise operation, it provides reliable performance and flexibility for professional kitchen installations.
