Product Overview

Professional Performance in a Compact Form

This high-efficiency ice maker delivers rapid, bullet-shaped ice production, generating 9 cubes in just 6 minutes. Engineered for convenience, it features a generous 2-liter tank and a daily capacity of 26 pounds to handle your cooling needs. With its whisper-quiet operation and intuitive smart sensor controls, it is the perfect solution for keeping beverages and perishables chilled in any professional or home setting.

Performance Specifications

Cycle Duration	6 min
Daily Capacity	26 lb
