

Button Cell Batteries

These button cell batteries are commonly used in small electronic devices. They are typically lithium batteries found in watches, calculators, and remote controls.

Product Overview

Reliable Power for Small Electronics

These button cell batteries provide consistent and dependable power for a wide range of compact electronic devices. Designed for longevity and stability, they are ideal for use in precision instruments, watches, calculators, and remote controls. Their standardized sizing ensures compatibility with diverse consumer and industrial electronics.

Technical Specifications

Available Models

- LR44
- LR1130
- LR41

Battery Chemistry

Alkaline • Button Cell

Polarity Indication

Yes

Primary Applications

Watches, Calculators, Remote Controls, Small Electronics
