

Bypass Pruning Shears

These pruning shears feature a bypass cutting action for clean and precise cuts. They are constructed with hardened steel blades for durability and long-lasting performance.

Product Overview

Professional Bypass Pruning Shears

These bypass pruning shears are designed for precision and durability in gardening and landscaping tasks. Featuring a high-quality 50# steel blade with a chrome treatment, they ensure clean cuts and resistance to corrosion. The aluminum handles, finished with a comfortable PVC dipping, offer an ergonomic grip for extended use, while the integrated safe lock provides secure storage.
