

C14 Power Connector

This power connector is suitable for use in electric appliances. It has UL/CUL, ENEC, and SAA approvals.

Product Overview

Reliable C14 Power Connectivity

The XR-602R C14 power connector is engineered for secure and reliable power transmission in various electronic devices and equipment. Designed to meet the stringent IEC60320 standard, this connector features a robust construction with ribbed strain relief for enhanced durability. It is an ideal solution for professionals seeking a dependable power interface for high-performance hardware.
