

C7 Power Connector

This C7 power connector is suitable for use in electric appliances. It has UL/CUL, VDE, SAA, CCC, ASTA, and KC approvals.

Overview

C7 Power Connector Overview

The C7 power connector is a versatile and reliable electric power component designed for a wide range of electronic devices. Built to the IEC60320-1 standard, this two-prong connector ensures safe and consistent power delivery for equipment such as radios, audio systems, and various power adapters. With multiple international approvals, it is a dependable choice for global power applications.
