

# Cable Cutter and Clamp Assortment

This assortment features cable cutters and clamps for electrical and telecommunications applications. These galvanized steel hardware components facilitate secure and reliable connections in infrastructure projects.

## Product Overview

### Professional Cable Installation Hardware

This comprehensive assortment of galvanized steel hardware is engineered for secure and reliable connections in both overhead and underground infrastructure projects. The kit includes specialized cable cutters and a variety of clamps designed to accommodate different cable types and load requirements. It provides a versatile solution for electrical and telecommunications professionals needing durable, high-performance installation components.

## Technical Details

### Included Components

- Cable Cutters
- Cable Clamps
- Support Hardware

### Material and Finish

Galvanized Steel

### Primary Applications

Electrical Infrastructure, Telecommunications, Overhead Cabling, Underground Cabling

## Quality Standards

### Durability Features

Corrosion Resistant • High Load Capacity • Industrial Grade
