

Cable Gasket Washer

This gasket washer is designed for use with cables. It provides a secure seal and support.

Overview

High-Performance Power Cable

This 0.6/1KV power cable is engineered for durability and reliable electrical transmission in demanding industrial environments. Constructed with copper conductors and robust PVC insulation and sheath, it adheres to the IEC 60502-1 standard. This cable is designed to provide consistent performance, ensuring safety and efficiency for your power distribution infrastructure.

Technical Specifications

Material Composition

- Copper Conductor
- PVC Insulation
- PVC Sheath

Cable Type

VV • Power Cable

Voltage Rating

0.6/1KV

Compliance Standards

IEC 60502-1
