

Cable Tie Tensioning and Cutting Tool

This cable tie tool tensions and cuts cable ties quickly. Its durable construction and ergonomic design provide a comfortable grip and precise control for neat and secure fastening.

Overview

Efficient Cable Management Solution

This cable tie tensioning and cutting tool is designed for fast and automatic binding of wires and cables. It features a durable construction with an ergonomic design to ensure a comfortable grip and precise control during high-volume tasks. The tool automatically tensions the tie and provides a clean cut, making it ideal for professional wiring harnesses and general bundling applications.

Technical Specifications

Compatible Tie Length

50 mm

Min Length

350 mm

Max Length

Maximum Tie Width

4.8 mm

Body Material

Plastic

Functionality

Key Features

- Fast binding and automatic cutting
- Automatic tensioning to desired levels
- Clean cut of excess strap for neat fastening
- Ergonomic handle for comfortable use

Applications

Cable Management, Wiring Harnesses, General Bundling, Industrial Wiring
