Product Overview

High-Performance CAC Hose

This Charge Air Cooler (CAC) hose is engineered to provide a reliable, leak-free connection between the turbocharger and intercooler. Designed to withstand high temperatures and extreme pressures, it ensures optimal airflow to maintain peak engine efficiency. This component is an essential replacement for worn or damaged intake system hoses, offering durability and precise fitment for demanding automotive applications.

Technical Specifications

Reference Number	N900271050005
Application	Turbocharger / Intercooler / CAC System

Quality & Compliance

Quality Standards

High-Temperature Resistant • Pressure Tested • Durable Construction

Certifications	TS 16949, ISO Certified, IAF, CNAS
