

CAC Intercooler Turbocharger Hose

This CAC intercooler turbocharger hose ensures optimal airflow and performance. It is engineered to withstand high temperatures and pressures, providing a reliable connection between the turbocharger and intercooler.

Product Overview

High-Performance Charge Air Cooler Hose

This Charge Air Cooler (CAC) hose is engineered for demanding automotive environments, serving as a critical connection between the turbocharger and the intercooler. Constructed from reinforced silicone, it is designed to withstand high temperatures and pressures, ensuring optimal airflow and consistent boost levels. Its durable build resists heat and oil exposure, providing a reliable, long-lasting solution that helps maintain peak engine efficiency and prevents common leaks.

Technical Specifications

Part Number	3715017982
Alternate Part Number	384 501 14 82
Material	Reinforced Silicone

Quality Standards

Certifications

TS 16949 • ISO 9001 • CNAS • IAF

Key Features

Performance Benefits

- High temperature resistance
- High pressure tolerance
- Oil and fluid resistance
- Leak prevention
- Optimized airflow
