

Cake Pop Maker with Non-Stick Surface

This compact appliance efficiently bakes individual cake pops. Its non-stick surface ensures easy release and cleaning.

Product Overview

Compact Cake Pop Maker

This efficient kitchen appliance is designed for baking 12 individual cake pops at once, making it an ideal choice for cafes, bakeries, or home use. It features a high-quality non-stick coating for easy food release and simple cleanup, paired with a cool-touch housing for safe operation. With thermostatically controlled heating and clear power/ready indicator lights, this unit ensures consistent, professional results with every batch.
