Overview

Aluminum Camlock Quick Connect Coupling

This aluminum camlock coupling is designed for efficient, tool-free connection and disconnection of pipes and hoses. Engineered for durability and economy, it provides a secure, leak-proof seal for fluids, powders, and pellets. Ideal for a wide range of industrial and agricultural applications, this fitting offers significant time savings over traditional threaded or flanged connections.

Technical Specifications

Body Material	Aluminum
Available Sizes	1/2" to 8"
Max Working Pressure	250 psi
Operating Temperature	-150°F to +250°F
Standards	A-A-59326, MIL-C-27487, DIN 2828

Components & Materials

Component Materials

Component	Material Options
Pins, Rings, Safety Clip	Carbon steel (plated) or Stainless steel
Handles	Brass or Stainless steel
Seal	NBR, BUNA, EPDM, VITON
