

Canister Vacuum Cleaner with Automatic Cord Rewinder

This is a canister vacuum cleaner with speed control on the body and a full bag indicator. It features 360-degree hose swivel rotation, a 4-filter system, and a pedal on/off switch with automatic cord rewinder.

Product Overview

Efficiency and Performance

The BST-830 canister vacuum cleaner is designed for high-performance floor care, offering intuitive speed control directly on the unit. It features a robust 4-filter system for improved air cleanliness and a 360-degree swivel hose to ensure maximum maneuverability during operation. With a user-friendly pedal-operated power switch and an integrated automatic cord rewinder, this unit prioritizes both convenience and professional-grade results.
