

Canister Vacuum Cleaner with HEPA Filter

This canister vacuum cleaner is designed for household use. It features a multi-stage filtration system with a HEPA filter and a transparent dust collection chamber.

Product Overview

Professional Performance in a Compact Design

The YLC87 Series canister vacuum cleaner is engineered for high-efficiency cleaning across diverse floor surfaces. It features an advanced multi-stage filtration system, including a dedicated HEPA filter, to effectively trap dust and allergens. With its intuitive design, users can easily monitor dust levels through a transparent chamber and adjust suction power to meet specific cleaning requirements.

Technical Specifications

Filtration Type	Multi-stage, Pre-filter, HEPA Filter
Suction Control	Yes
Power Management	Retractable cord

Design and Ergonomics

Portability

- Durable carrying handle
- Smooth-rolling wheels

Dust Chamber	Transparent for level monitoring
