

Canister Vacuum Cleaner with Stepless Speed Regulation

This vacuum cleaner features speed control and a 360° rotating hose. It also has a 5-filter system and an automatic cord rewinder.

Product Overview

Professional Cleaning Performance

The BST-813 canister vacuum cleaner is designed for efficient and adaptable cleaning in professional environments. Featuring advanced stepless speed regulation and an intuitive airflow control handle, users can easily transition between different surfaces and debris types. With a robust 5-filter system and integrated convenience features like automatic cord winding and a full bag indicator, it provides reliable performance and high-standard filtration for various applications.
