

# Canister Vacuum Cleaner with Telescopic Wand

This canister vacuum cleaner is equipped with a flexible hose and telescopic wand. It also features a floor nozzle with a brushroll and adjustable height settings.

## Overview

### Versatile Canister Design

This canister vacuum cleaner is engineered for efficient floor care and maneuverability. Featuring a telescopic wand and a flexible hose, it provides the reach and versatility needed to clean various surfaces with ease. The integrated wheel system and carrying handle ensure simple transport, while the floor nozzle includes adjustable settings to optimize performance.
