

Canned Carbonated Drink Production Line

This automated production line is designed for manufacturing and packaging carbonated canned drinks. The system integrates can loading, filling, sealing, labeling, and conveying.

Product Overview

Automated Beverage Production System

This comprehensive production line is engineered for the efficient processing of carbonated beverages in easy-pull cans. It integrates critical stages including washing, filling, and sealing, supporting a variety of materials such as tinplate, aluminum alloy, and PET plastics. Designed for high-volume environments, the system features automated lifting and turnover functions to ensure consistent, reliable output for professional beverage manufacturers.

Technical Specifications

Performance Metrics

Model	Capacity (b/h)	Power (kW)
XD-120	1000-2000	1.5
GD-24	2000-10000	2.5
GD-32	3000-9600	3.5

Physical Specs

Model	Dimensions (LxWxH mm)	Weight (kg)
XD-120	1930x1640x3200	2000
GD-24	1460x1570x1900	3000
GD-32	1270x1050x1900	4000

Compatible Can Materials	Tinplate, Aluminum Alloy, PET Plastics
Compatible Can Dimensions	Diameter: 50-80mm; Height: 85-150mm
