

Car Air Purifier

This ultrasonic cool mist humidifier improves air quality and provides relief from dry air inside vehicles. It features a transparent water tank for easy monitoring and an adjustable nozzle for directional mist control.

Product Overview

Compact Ultrasonic Humidifier

This ultrasonic cool mist humidifier is designed to significantly improve air quality in small spaces such as cars, bedrooms, or offices. Featuring a transparent water tank for easy monitoring and an adjustable nozzle for precise mist control, it offers a user-friendly solution to dry air. Built from durable plastic, this compact unit utilizes safe cool mist technology to provide efficient humidification without the risk of burns.

Technical Specifications

Mist Technology	Ultrasonic Cool Mist
Material	Durable Plastic

Features & Usability

Key Features
